Healing relationships and transformations in health care:  
Ethical discernment and practical recommendations

William F. Sullivan, MD, CAC (COE), FCFP, Ph.D

Department of Family and Community Medicine

St. Michael's Hospital and Surrey Place Centre, Toronto, Canada

# colloquium themes

## Healing

Hal = whole

Halig = holy

To be healed means living every aspect of life guided by ultimate meaning, value, and hope.

# colloquium themes

## relationships

- human encounter
- ethical discernment & decision
- ethical commitment

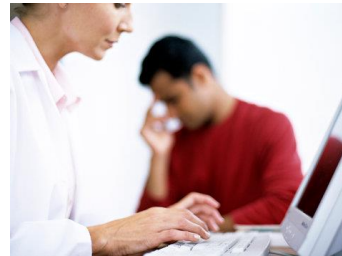

To have a conscience means to be discerning.

# colloquium themes

## transformations in health care

public  
health

systems approach  
life course approach

Two's company; three's a crowd: Modern health care is becoming a crowd.

# colloquium themes

## Ethical discernment

- What's happening?
  - healing?
  - relationships?
  - ethical discernment?
  - effects on poor and vulnerable?

What values ought to guide these transformations?

# colloquium themes

## practical recommendations

- how to implement
- education
  - statement
  - papers
  - case commentaries
  - videoclips
  - documentary
